

## **CANADIAN FOUNDATION FOR FACIAL PLASTIC AND RECONSTRUCTIVE SURGERY**

### **Who We Are**

The Canadian Foundation for Facial Plastic and Reconstructive Surgery plays a critical role in supporting and funding the international humanitarian relief efforts of FACE TO FACE Mission surgeons, many of whom travel the world donating their time and skills to help disfigured children in less fortunate countries reclaim their lives.

Headquartered in Toronto, Ontario, The Canadian Foundation works tirelessly to fund programs like FACE TO FACE which are sponsored through the Education and Research Foundation of the American Academy of Facial Plastic and Reconstructive Surgery in Alexandria, Virginia. Funds raised by The Canadian Foundation are used to support facial plastic and reconstructive surgery efforts for children suffering from congenital or traumatic deformities around the globe. Donations directed to The Canadian Foundation are also used to help cover travel and accommodations costs of FACE TO FACE's committed and caring team members, who donate their time and expertise.

### **Face To Face Facts**

In the United States AAFPRS became the first surgical group to step forward and help survivors of domestic violence, many of whom lack the financial resources to repair their injuries.
